Relevant Experiences

Kenya National Science Robotics Fair // 2019

Worked with a diverse team as we collaborated in writing modern, performant, Elaborate and performant Code.

I interacted and collaborated with multi-disciplinary teams of engineers on a daily basis as we discussed how to use and implement Robotics to solve real world issues and problems.

Worked well under pressure as we competed with a diverse array of competitors in the Robotics competitions.

Worked with python as we perfected our robotic project.
